User Guide

The AUCN Car Report is a detailed account of a vehicle's history, designed to help consumers better understand the car they are considering purchasing or planning to buy, thereby reducing the risks associated with buying used vehicles. It's important to note that the AUCN Car Report primarily contains historical data related to the vehicle and is not a vehicle condition inspection report. As such, it does not provide information on the current condition of the vehicle, such as potential engine or transmission issues, or whether any electronic components are damaged.

The following are terms that you may be confusing when reading the AUCN Car Report which we will explain further here:
