Features

Benefits

66 Litre Capacity

The new design of the Entice Collection has delivered a larger usable space to cook those special dinners for the family.

Triple Glazed Thermo-reflective Door

The triple layered door with thermo-reflective glass offers not only a cooler to touch surface but also increases the energy efficiency as the heat is retained within the oven.

Catalytic Self-cleaning Liners

On the rear and side of the oven, these self-cleaning liners means less time spent cleaning your oven. Catalytic liners absorb grease and dirt from everyday cooking, and then burn it off at up to about 200°C.

Telescopic Runner

When using the telescopic runners shelves can be pulled out to aid loading and unloading of the oven.

Fully Programmable Timer

The fully programmable touch control operation enables you to set the start and finish time of your cooking where the oven will automatically switch off when finished.

Black Enamelled Interior

Hard wearing enamel cavity that is easy to clean.
